

## Block Island Greenway Marketing Piece for Visiting Pilots.

### Fly into Nature! Come Explore Block Island's Scenic Greenway Trails by Air!

There are amazing outdoor recreation opportunities a stone's throw from the Block Island State Airport. Access is easily found directly across from the airport at the Nathan Mott Park trailhead. This property and its trail system connect to 16 miles of trails that can take you as far north as Great Salt Pond, as far south as Black Rock on the Atlantic Ocean, as far west as Dickens' Farm and as far east as Payne Road which is a 15 minute walk to town. While journeying on these clearly marked trails a visitor can see some of the best views the island has to offer, amazing birds, and spectacular plants and other wildlife. For those who are fitness buffs, the trails are hilly and offer a challenging terrain for running or cross training. A map and trail guide are available for purchase from the Block Island Chamber, Island Bound, and The Nature Conservancy.
